Amazon Web Services: AWS Cloud Foundations is intended for students who seek an overall understanding of cloud computing concepts, independent of specific technical roles. It provides a detailed overview of cloud concepts, AWS core services, security, architecture, pricing and support.

CompTIA A+ Certification: CompTIA A+ Certification validates the latest skills needed by today’s computer support professionals. It is an international, vendor-neutral certification recognized by major hardware and software vendors, distributors and resellers.

Motorcycling is one of the most exciting forms of transportation. Part of the thrill of motorcycling is to know that you are totally responsible for every action taken, from timing each shift to keeping a keen eye out for other motorists. To understand these responsibilities and get the most from your experiences, the Connecticut Basic Rider Course (BRC) is the place to start. This course offers expert instruction for both the beginner and experienced rider. Successful completion of this course fulfills the requirements of the State-approved novice rider course for licensing, leaving only the written test to be taken at the CT Department of Motor Vehicles (DMV). Motorcycles will be provided. Ranges are located in Colchester and Norwich.

Fee: $220 non-refundable

Sales Fundamentals BIS L9337, 3310 Although the definition of a sale is simple enough, the process of turning someone into a buyer can be very complex. It requires you to convince someone with a potential interest that there is something for them in making their interest concrete – something that merits spending some of their hard-earned money. The Sales Fundamentals workshop will give participants a basic sales process, plus some basic sales tools, that they can use to seal the deal, no matter what the size of the sale. Your participants will become more confident, handle objections, and learning how to be a great closer.

Total Hours: 12 Costs: $199
Dates: 10/6-10/27 Days: TH
Time: 8:30 AM - 11:30 AM
Location: W102
**Supervising Others**  
**MGMT L9045, 3361**  
Supervising others can be a tough job. Between managing your own time and projects, helping your team members solve problems and complete tasks, and helping other supervisors, your day can fill up before you know it. The Supervising Others workshop will help supervisors become more efficient and proficient, with information on delegating, managing time, setting goals and expectations (for themselves and others), providing feedback, resolving conflict, and administering discipline.

HEALTHCARE CAREERS

Pharmacy Technician*
HMED L6000, 3300
This certificate program is being offered in partnership with Three Rivers Community College and will prepare students to start a new career path at a hospital or pharmacy while working under the supervision of a registered pharmacist as described above. Course content includes medical terminology specific to the pharmacy, reading and interpreting prescriptions, and defining drugs by generic and brand names. Proper customer service in the health care setting will also be emphasized. The instructor will spend time focusing on quantitative procedures, such as: prescription filling, sterile product preparation, compounding, and calculating prescription dosages, which would be a requirement if students choose to pursue a career as a registered pharmacist. This course prepares the student to take the national Pharmacy Technician Board (PTCB) national certification exam, included in course cost. Visit http://www.ptcb.org/ for more information.
