

CT STATE QUINEBAUG VALLEY

GET IN. GET OUT. GET A JOB.

FALL 2023 PHARMACY TECHNICIAN

PROGRAM DESCRIPTION

The Pharmacy Technician certificate program will prepare you for a fulfilling and in-demand career as a pharmacy technician.

Pharmacy Technicians support pharmacological services by distributing, stocking and assembling medication. They work under the supervision of registered pharmacists in home infusion, community, retail and mail-order pharmacies, as well as in hospitals, clinics, long-term care facilities, large industrial complexes or as pharmacy benefit managers.

The Pharmacy Technician Certification Program includes a graded final exam to help prepare students for the PTCB exam. This national certification program enables pharmacy technicians to work more effectively with pharmacists to offer safe and effective patient care and service.
